This is the fresh approach

Most people spend an average 90% of their time indoors, where pollutant levels can be surprisingly higher than they are outside.* The Scentsy Air Purifier quietly cleans the air around you while also dispersing signature Scentsy fragrance, so your environment is left clean and beautifully scented.

The Scentsy Air Purifier uses a HEPA H13 filter capable of **removing at least 99.95% of airborne particles** as small as 0.3 microns (µm) — including dust, pollen, mold and bacteria — and releases clean air through Scentsy Pods.

- **Use up to two Scentsy Pods** to enjoy instant fragrance!
- **Three fan settings:** Auto mode, Low and High. In Auto mode, the fan will automatically switch to High to quickly clean the air when it identifies pollution.
- **Run continuously or set a timer** for two, four or eight hours.
- **Air quality indicator light** lets you know when particles are detected and when the air is clean.
- **Ideal for small spaces** up to 200 square feet, like nurseries, home offices, bedrooms and more.

Why Scentsy

We make durable, convenient fragrance solutions to quickly freshen your spaces. Includes limited lifetime warranty.[†]
